

Sizing Worksheet for Tablet Tutorial  
Jennifer Mathis

Fill in the appropriate measurements.

Measure your device:

A = \_\_\_\_\_ height

B = \_\_\_\_\_ width (If you have a larger and/or thicker cover on your tablet, measure the circumference and divide by 2 to determine your width.)

Complete the addition equations to configure the correct measurements for your device.

For outer fabric front panel:

A + 1" = \_\_\_\_\_ height

B + 1.5" = \_\_\_\_\_ width

For outer fabric back panel:

A + 7" = \_\_\_\_\_ height

B + 1.5" = \_\_\_\_\_ width

For lining fabric front panel:

A + 2" = \_\_\_\_\_ height

B + 2.5" = \_\_\_\_\_ width

For lining fabric back panel:

A + 8" = \_\_\_\_\_ height

B + 2.5" = \_\_\_\_\_ width
